Ratnesh Patil

Front-End Developer

📍 Pune ✉ ratneshpatil117@gmail.com

🌐 Portfolio   in /ratneshpatil   /ratnesh1972

Results-driven Frontend Developer with 5+ years of experience in building responsive, user-focused web applications. Proficient in React, JavaScript, and modern CSS frameworks with a strong eye for UI/UX design. Delivered 10+ websites from scratch with a mobile-first approach. Adept at collaborating across teams, leading small groups, and working with prototyping tools like Figma and Adobe XD. Known for a roll-up-your-sleeves attitude and problem-solving mindset.

Experience

Cybage Software — Senior Software Engineer
📅 Jun 2022 - present

React Reactstrap Django

- Worked for SSP platform client in the Digital Out-of-Home (DOOH) advertising domain
- Developed a React-based self service portal for publishers to manage inventory, setup campaigns, and view performance reports .
- Focused on building reusable and responsive UI components using React, and Reactstrap, ensuring a seamless and intuitive user experience.
- Integrated with RESTful APIs for campaign setup, analytics, and inventory syncing; collaborated with backend teams to define API contracts and optimize data flow.
- Participated in UI/UX reviews and component design using Storybook and Figma prototypes.
- Wrote unit and integration tests using Jest and React Testing Library to ensure code quality and maintainability.
- Built multiple responsive dynamic creatives using HTML, CSS, and JS, generating ~$1.5M in revenue in 2025
- Developed Django-based admin panel for internal ops team to manage campaign configuration and execution.
- Worked in both Agile and Kanban environments focusing on continuous delivery and iterative improvement.

Accenture — Application Development Analyst
📅 Oct 2019 - May 2022

React Material UI

- Built UI components for a DTH client website using React, Redux, and Material UI.
- Resolved application issues by analysing session logs via Splunk and EFK.
- Automated reporting workflows using Python scripts.
- Participated in weekly incident reviews and managed critical issue escalations.
- Performed application health checks and quarterly security patching.

vInnovate Technologies — Web Development Intern
📅 Jan 2019 - Oct 2019

PHP Javascript Bootstrap MySQL

- Developed responsive websites for education and hospitality clients using HTML, CSS, JS, and Bootstrap.
- Built admin panel to manage website content using PHP and MySQL.
- Conducted requirement gathering and product demo sessions with the clients.

Projects

Portfolio Website

React Tailwind CSS

Developed a responsive, modern portfolio website using React and Tailwind CSS to showcase projects and technical skills. See all of my projects on my portfolio: 🔗 ratneshpatil.netlify.app

Backpacker Tours Website

React Reactstrap JetAdmin

Designed and developed a responsive tourism site with React and Reactstrap. Used JetAdmin for building APIs and admin panel to manage tours. See it live at - 🔗 backpackertours.in
